GETTING HERE

FUN FACT: Along the Black River you will find the oldest known trees east of the Rocky Mountains: a stand of 1,700-year-old bald cypress. These ancient trees are easily recognized by their huge buttresses and flat tops that have been blown out by countless storms.

In recognition of the fact that the Black River is one of the cleanest, high-quality waterways in North Carolina, the state designated the river an Outstanding Resource Water in 1994. The Black River is a treat to canoe throughout the seasons. You will relish drifting down the slow-moving tea-colored river flanked by stately bald cypress draped with Spanish moss. Swamp roses bloom in the spring and spider lilies grace the water in the summer. Spring is a great time to see migratory songbirds nesting, while the foliage is outstanding in the fall.

Chocolate-Covered Bacon Recipe

Some say bacon can't get any better, but we think chocolate makes everything better!

INGREDIENTS

- 12 thick-sliced bacon strips (about 1 pound)
- 12 wooden skewers (12 inches)
- 6 ounces white candy coating, chopped
- 1 cup semisweet chocolate chips
- 1 tablespoon shortening

Optional toppings: chopped dried apple chips, apricots and crystallized ginger, finely chopped pecans and pistachios, toasted coconut, kosher salt, brown sugar, cayenne pepper and coarsely ground black pepper

DIRECTIONS

1. Thread each bacon strip onto a wooden skewer. Place on a rack in a large baking pan. Bake at 400° for 20-25 minutes or until crisp. Cool completely.
2. In a microwave, melt candy coating; stir until smooth. Combine chocolate chips and shortening; melt in a microwave and stir until smooth.
3. With pastry brushes, coat bacon on both sides with melted coatings. Top each strip as desired. Place on waxed paper-lined baking sheets. Refrigerate until firm. Store in the refrigerator. Yield: 1 dozen.

Mountains-to-Sea Trail

The Mountains-to-Sea Trail, an effort to link Clingman's Dome in the Great Smoky Mountains National Park to Jockey's Ridge State Park on the outer banks, is the flagship project of the North Carolina State Trails Program. Today, over 450 miles of the 1,000 mile route are open for use. Partners across North Carolina are helping to plan and build the trail to link communities together and to serve as the backbone of a growing system of land and water trails.

When completed, the route will pass through 37 counties containing about 40 percent of the state's population. The trail is used by people out for an afternoon stroll as well as those planning to hike the trail from one end of the state to the other. MST has the distinction of being the highest elevation, long-distance trail in the eastern United States, where it crosses Mount Mitchell at 6,684 feet (2,037 m).

The trail concept was first proposed in 1977 by Howard Lee, then secretary of the N.C. Department of Natural Resources and Community Development.
